COUNTY OFFERS CITIES FIRE CONTRACT

Canyon firemen are shown here sprinkling the fringes of a grass fire on the C. P. Overton place northeast of Canyon. The fire blackened about 65 acres of soil bank land Monday.

No Cash Exchange In Service Trade

Randall County Commissioners court Monday offered to give the city of Canyon use of its jail and police communications services in return for city fire protection for rural areas of the county south of Hollywood Road.

The county also offered the city of Amarillo a flat $3,000 a year for fire protection for the remainder of the county.

County officials stressed that neither of these proposals have been formally accepted either by Amarillo or Canyon.

Arrangements with Umbarger and Happy will remain the same as before. Umbarger Fire Department, using equipment largely furnished by the county, will continue to receive $25 per fire and Happy $100 per fire.

Commissioner Bill Butler said he and Commissioner Jim Fletcher have negotiated with both Canyon and Amarillo.

Canyon has been receiving $100 a fire and answered 69 calls in 1969. The department has answered 89 rural calls this year to date.

Butler estimates that the jail and communications services provided by the county is worth about $12,000 for which the city has been paying only $150 a month.

The city of Amarillo has estimated its cost at $565 a fire call and has been asking the county $250 a call.

The county's contract with Amarillo expired in October. Canyon Fire Chief Jack Jennings said the contract between Canyon and the county does not expire until some time next spring.

Amarillo Assistant Fire Chief Clyde Gibbins said his department fought only nine rural Randall County fires in 1969 but has answered 35 rural calls in the county this year. Eight of those have been since October.

Butler said most of the calls answered by Amarillo Fire Department were grass fires and easily contained. He said greatest danger in fighting a grass fire is to the fire truck.

Canyon City Manager George Loudder Monday said he does not know whether the city commission will accept the county's proposal. He said it will be discussed at a regular commission meeting Jan. 7.

In other business, the court set the date for honoring retiring Commissioner Clarence Beckman for some time in January — tentatively the third Monday.

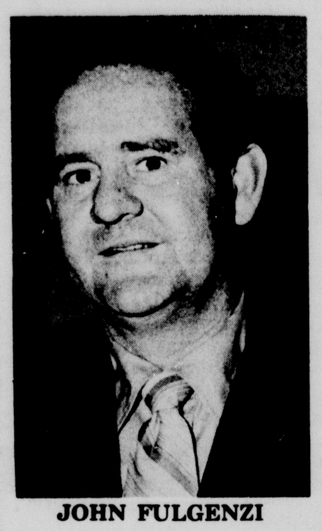
The court voted unanimously to commend Judge Carroll Brown for services to the county during his three-year tenure as county judge.

"I have certainly enjoyed serving with you," Judge Brown told the court.

Commissioner-Elect John Fulgenzi told the court he thinks further repair to the South Amarillo Court House Annex is "just a maintenance job."

The court delayed until after Jan. 1 accepting bids on projected road repair in the north part of the county.

New Commissioner Has Varied Background



JOHN FULGENZI

The new county commissioner from Randall County's Precinct 2 has had his share of difficulty with dictators.

John Fulgenzi was born in Madrid but fled that country with his family as a child when Francisco Franco stormed the republic in 1936.

His family left France when the Nazis threatened in 1939 and a second time departed Spain when it appeared that Franco would join forces with Hitler.

After John was grown his parents were expelled from Cuba by the Batista dictatorship in the middle 1950s.

Fulgenzi came to be born in Spain because his father was an international banker representing the National City Bank of New York in Madrid.

John was six years old when he and his mother, two brothers and a sister were evacuated by the U.S. Navy to England and thence by ship to the United States.

All through his childhood John more or less called Blackwell, Okla., home because that's where his mother always took her brood when things got too hot overseas. John's granddad, a plumber, lived there and it was in Blackwell that John got his first two years of schooling.

His mother took the family to Paris in the late 1930s, and John's dad would make it to see them about once a month.

The family was vacationing in Nice in September of 1939 when World War II broke out.

"We put a mattress on top of our car to protect us from shrapnel during strafing, put an American flag on our car and headed for the Spanish border," Fulgenzi remembers.

"The civil war in Spain was over and we felt we had to get out of France."

After a short stay in Spain the family returned to Blackwell because John's dad didn't feel that it was safe for them to remain there. In the meantime, the elder Fulgenzi stayed at his post.

Fulgenzi attended a military academy in Lexington, Mo., and then got a degree in civil engineering at Oklahoma State, graduating in 1952. Just out of college he went to the Air Force in 1952 and finally was assigned as an assistant to the chief of staff, Headquarters, Third Air Force, as a construction engineer.

He presently holds the rank of major in the AF reserves and is assigned as a special officer to interview candidates from this area for the Air Force Academy.

He was released from active duty in 1954 and then worked for Continental Oil Company until 1959. He went into business for himself in 1962 in Albuquerque

Dry Grassland

Fire Hazard Up

Canyon Fire Department has answered calls to eight grass fires this month as tinder-dry grass makes such fires more and more likely.

Worst fire so far was on the C. P. Overton place northeast of Canyon Monday afternoon. Canyon Fire Chief Jack Jennings said about 65 acres was blackened by that blaze.

Neighbors pitched in to help put out the fire which was on a stretch of grassy soil bank acreage.

John Albers, a neighbor, plowed a fire break while Canyon firemen sprayed the edges of the smoldering turf with hoses from a Canyon fire truck.

About a dozen youngsters fought the flames with brooms and gunny sacks.

Chief Jennings said he believes the fire may have been started from a trash

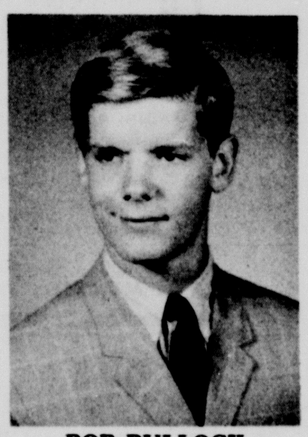
City Student To US Naval Academy



BOB BULLOCK

Robert Alan (Bob) Bullock, son of Dr. and Mrs. Jack M. Bullock, has recently been appointed to the United Naval Academy at Annapolis, Maryland.

Bullock received the appointment through a Presidential Disabled Veterans nomination. The Canyon High School senior has received a total of three nominations to Annapolis over the past few months.

After receiving the Presidential nomination May 28, Bullock was nominated by U. S. Senator Ralph Yarborough October 20. Soon after receiving the Yarborough nomination Bullock received a congratulatory letter from John Tower.

On October 30, Bullock received a form for application to the Naval Academy in the Presidential Disabled Veterans category and returned it. November 5 he received the same form from the Senator Yarborough nomination.

D. H. Guinn, Vice Admiral, U. S. Navy, Chief of Naval Personnel wrote the following on December 21: "It is my great pleasure to inform you that you have been

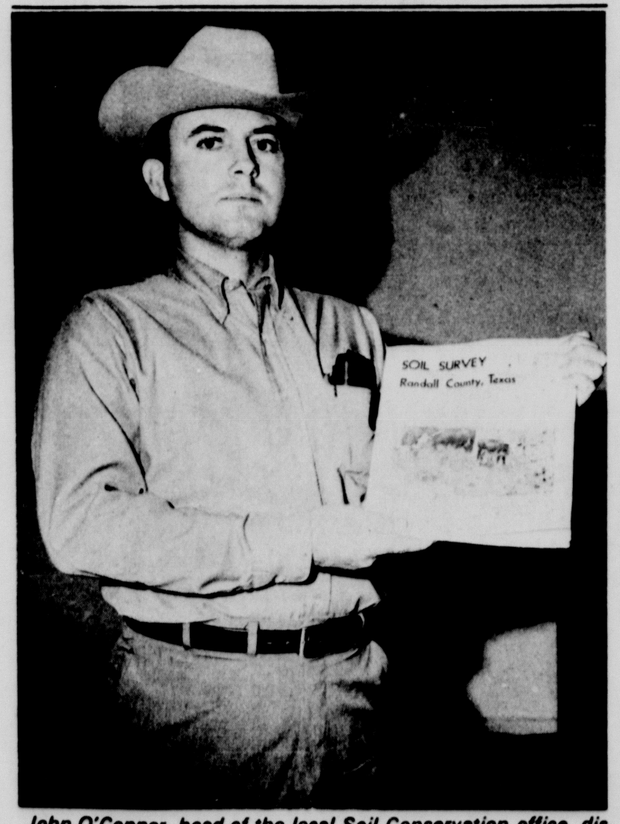
City Sales Tax Check Arrives

Canyon received its city sales tax check for the third quarter last week.

City Manager George Loudder said the check came to $13,973 as compared to $13,145 for the second quarter. He said he expects the next two quarters to be more.

Canyon's sales tax checks — based on retail sales — as compared to towns of equal size or smaller is considerably less.



John O'Conner, head of the local Soil Conservation office, displays the new soil survey for Randall County. O'Conner said the results of the government study of Randall County soils will be invaluable for land use planning and agricultural purposes. The survey is now available at the SCS office in Canyon.

Robert Watson Sentenced Here

Robert Watson, 51 years old, 4313 Polk, Amarillo, was formally sentenced to serve from two to five years in state penitentiary Monday in the 181st District Court of Judge Don Dean.

Watson was found guilty of murder without malice Dec. 16 in connection with the Aug. 6 death of his wife, Hazel Marie.

Watson admitted kicking and beating his wife to death in a drunken rage at their home. He said both he and his wife were alcoholic and had spent the day drinking just prior to his wife's death.

He said he and his wife had planned to go fishing that day but began drinking and then went to sleep. He awoke to find his wife gone and went to look for her.

He said he went to several bars without success, drinking as he made the rounds, and then to the home of a relative. He said he went home and was locked out, cut the screen and entered his home to be attacked by his wife.

He admitted kicking and beating her but said it would never have happened if both had not been drinking. Mrs. Watson became unconscious and he went to bed, he said.

He awoke to find his wife dead and in a state of fear

Girl Eagles Lose In Overtime Game

Canyon High School's girl Eagles lost a heart breaker Tuesday in double overtime in the Slaton tournament.

The girls lost 50 to 47 to Idalou.

The Eagles led by a narrow margin until the final seconds of the game when Idalou tied it up 39-39.

Both teams scored four points in the first overtime and then Idalou scored 7 to Canyon's 4 in the second overtime period.

The girl Eagles actually lost the ball game at the free throw line. They shot only 15 free throws for 35 trips to the line while Idalou sank 30 out of 42 tries.

Leta Gill paced the Canyon team with 25 points to her credit. Marilyn Read scored 10 points, Lynette Slack 7 and Kris Tucker 5.

The girl Eagles won the first round of the tournament blasting Sundown 64-33. Gill also led in that contest with 28 points.

After their defeat the Canyon girls headed home from the single elimination

Weaver Is Slain In Gun Accident

Cebern W. Weaver, 58 years old, 5804 West Forty-Ninth in Amarillo, was shot to death Monday morning when the shotgun he had just loaded accidentally discharged.

The accident occurred about 4½ miles west of the E-Way on Hollywood Road.

He was the father of Lowell Weaver of Canyon.

Randall County Deputy Sheriff Cliff Longest said Weaver had gone with a hired hand, Cliff Kindle, to the farm he farmed on Hollywood Road.

Weaver told Kindle he was going to load his shotgun because he thought me might jump a coyote he had seen previously on the place. He instructed the hired man to start the motor on another pickup and let it be warming up.

Kindle went on to the other pickup and started it.

Weaver took the shotgun out of its case and apparently loaded it.

Longest believes the farmer grasped the gun by the barrel and put it into the back of the pickup which had some wire and several posts in it. The gun was not on safety.

Kindle told officers he heard the gun discharge and Weaver scream. He rushed back to the Weaver pickup and found his employer lying by a rear wheel.

Weaver had been shot in the chest. He was pronounced dead at the scene by Justice of the Peace W. W. Hancock.

Funeral services were held Wednesday morning at Paramount Baptist Church in Amarillo with graveside rites Wednesday afternoon at Seagraves.

Survivors, other than the son living in Canyon, include the wife, Mary of the home; another son, James of

FFA To Take Spring Orders For Fruit

The Canyon High School FFA will begin taking orders for their spring delivery of fruit when school reopens next week.

Boxes of oranges and grapefruits sell for $5.50 a box and may be ordered in January and February for March delivery.

The FFA uses the money rasied for their annual awards banquet, entry fees in stock shows, and hopes to be able to raise enough to purchase a new stock trailer.

Fruit orders may be placed by calling 655-3921 after the holidays.

'71 Plates Go On Sale Feb. 1

Vehicle license plates for 1971 have arrived at the Randall County Tax Assessor-Collector's office, but they will not go on sale until February 1.

Vehicle tags must be on automobiles by midnight April 1.

The renewal tape sent to auto owners from Austin is all that is needed to buy 1971 plates. If the renewal tape is unavailable owners will have to show a current license receipt and title of ownership.

No tag numbers may be reserved; all tags will be issued in the order sold.

Personalized license plates may be ordered from Austin by immediately filling out the application form available in the tax office and paying the extra $10 charge.

Set Texas Tryouts Next Month

The first tryouts for the 1971 cast for the musical drama "TEXAS" will be held in the Branding Iron Theatre on the WTSU campus from 1:00 p.m. to 6:00 p.m. Friday, January 8.

Talented actors, dancers, singers, and musicians will be vying for the 100 salaried positions open. Technical people such as costumers, back stage workers, and light and sound technicians will also be needed.

Those applying for the 1971 cast are asked to bring both school and home addresses, social security number, and photograph, at least billfold size.

Actors must be prepared to give a memorized reading, not to exceed three minutes. They will double as members of the chorus and all must audition for singing as

Debbie Vandiver, deputy in the Tax Assessor-Collector's office, is a pretty reminder that 1971 license plates go on sale February 1. The plates, which must be on vehicles by midnight April 1, have already arrived at the tax office.

FROM THE CANYON RIM

by Troy Martin

Canyon's need to do something about its retail situation is well-reflected in the past two checks from the state for city sales tax.

The check for the second quarter was $13,973.

Remember these checks are tied to retail sales within the city limits. Now let's take a look at some cities of comparable size in the Panhandle and note the size of their sales tax checks.

Canyon has a population of a little over 8,000 and Tulia's population is less than 7,000. Yet Tulia's check for the same period was $15,581. Dalhart with about 6,000 population drew a check for $22,241 while Perryton, just a smidgin bigger than Canyon, drew a whopping $31,573.

I don't think we can lay it all on to our proximity to Amarillo because Arlington has flourished between two municipal giants — Dallas and Fort Worth.

Canyon's pressing need right now, of course, is for housing. We need to encourage all the private building we can and also building of dormitories on the West Texas State University campus.

I would like to see our Chamber of Commerce and Industrial Foundation consult with the department of business at the university on the posssibility of running a survey on what is needed to serve this community from a retail standpoint.

I think the comparable size of the retail sales based sales tax checks from the state gives us a pretty clear picture of what is happening. At least half of our retail potential is being drained away.

The question is: What are we going to do about it?

Joe Gill, the school board member, says a man spends most of his life trying to make some money so he can have some fun spending it. Joe observes that he ought to try to have some fun as he goes along because by the time he gets his fortune made he'll likely be too old to enjoy it as much as he would have earlier.

Bill Foil, the Baptist preacher, said a lot of hippies have parents spending their years slaving and saving so they'll have money to retire.

The hippies are left with the impression that retirement is an ultimate goal of life. They say, "If that's the goal, why not retire right now?"

As New Year approached this season, I meandered through some old issues of The Canyon News.

The front page of The News for Jan. 6, 1905 announces that W. C. Kenyon had Maitland coal for sale.

George Brandon doubled as the town lawyer and newspaper editor.

Brandon already knew that cigarettes were no good.

"Cigarette smoking is one of the greatest evils," he observed in an editorial. "It confuses the brain and makes the user not only incapable of proper physical effort but weakens his moral character."

Choice hind quarter beef went for 6 cents a pound in the local grocery store and the less desirable fore quarter was 4 cents a pound.

Brandon was a town booster if there ever was one. He was president of the county board of trade and he urged farmers to grow small grains and feed cattle.

He brought them news of a cheap threshing machine powered by horses.

If Editor Brandon could only see today how well the farmers and stockmen of the Panhandle have followed his advice. I'd like to hear what he would have to say about mammoth Randall County Feed Yard located little more than a stone's throw from the very spot where Editor Brandon penned his admonition 65 years ago.

* * *

The front page of the first issue of 1922 paper told of Odus Mitchell being elected captain of the 1922 Buffalo basketball team. Mitchell was honored at a reunion of teammates here last fall.

"He never met his equal as a center, although many were several inches better in height," observed The News of that day.

A. B. Haynes was president of the Randall County Farm Bureau and 465 automobiles were registered in Randall County.

The noxious weed came in for its bruises that year too. There was a front page story telling the readers that the Canyon PTA had passed a resolution condemning punch boards and cigarettes. Sheriff W. C. Black warned offending merchants that the punch boards had better be gone or else.

The weather dropped to zero and Madison Daugherty opened a two-chair tonsorial parlor.

The young editor of The News, C. W. Warwick, predicted a good crop year and Grady Hazlewood, who retires today after some 30 years in the state senate, attended a 42 party in the Dodson home along with several other young people.

"It continued quite late," The News confided.

* * *

On January 1, 1942 the Buffs had just won the All-College Oklahoma City basketball crown. In the second game of the tournament they trounced the Razorbacks from Arkansas 54-41 in a contest which ended in a free for all.

All-American Price Brookfield paced his team and was named "most valuable player of the tournament."

A young preacher named Joe Findley arrived from Memphis to become pastor of Canyon First Christian Church. Joe has since earned his doctorate and is a member of the West Texas State University faculty.

Editor Warwick, now a veteran of 32 years as top man on The Canyon News, observed in his column just under the masthead on page 2 that "The US is a place where the little guy is boss."

America was in the throes of World War II and the front page was filled with news of servicemen.

* * *

I always feel a little better after looking through old newspapers. The world and the community have always had problems. Somehow our predecessors found solutions.

Somehow we will find the solutions to ours which are no more insurmountable than those which faced George Brandon and Clyde Warwick and their contemporaries in 1905, 1922 and 1942.

Our World

BY ANN BROWN

This is the season for wishing one and all a happy New Year. If the average American were asked what he needs to make his New Year happy, he would probably cite peace and prosperity.

The first year of the 70's has been one of confusion. There has been an impassioned cry for peace, yet protests against violence and destruction have been violent and destructive.

The "hypocritical" materialistic standards of adults have been decried by idle young people who live on the fruits of the materialistic labors of those same "hypocritical" adults.

Many churches are half empty, and others stand silent and deserted, yet men are seeking God through astrology, spiritualism, and drugs.

Many learned men insist our nation is doomed to the same fate that befell Golden Greece and Ancient Rome. Certainly we have similar problems.

In the midst of all this conflict and confusion, what can we rely on as fact?

Dissidents from coast to coast have protested the violence in Vietnam, and have blamed everyone from the President to the Military Industrial Complex. Yet there were more American casualties on our highways here at home during 1970 than there have been in Vietnam since our first serviceman landed there.

Why are the young people who abhor hypocrisy so concerned about the violence in Vietnam but not at all concerned about the much greater slaughter on our highways? Are the innocent women and children who fall victims to war in Asia more precious than the women and children who are maimed and slain every day by our automobiles?

Are the Eurasian waifs in the wake of war any more pathetic than the 300,000 illegitimate children born here every year?

Why is the bombing and burning of valuable building wicked aggression in Vietnam but merely social protest in America?

Is malnutrition any more devastating to the victims in Asia than drug addicition, promiscuity, and venereal disease to the victims in America?

Did the targets of the mass-murdering hippies in California love life any less than the victims at My Lai?

There is very little the average American can do about the war casualties or economic conditions overseas; those decisions must rest with the proper authorities. But we can do something about the carnage on our highways, the debauchery of our youth, and our sadistic, incorrigible criminals.

At least half of all traffic deaths are caused by drinking drivers. If Americans will not refrain from driving while drinking, the penalty for doing so could be made severe enough to deter them.

But what about the other half of our appalling traffic slaughter? Authorities report selfish disregard for the rights and welfare of others is the second killer. This could be eliminated by courteous, careful, law-abiding driving.

Cigarette advertising is to be restricted, yet tobacco with all its ill effects does not cause a fraction of the heartache that results from illicit sex. Sex, however, is exploited in all the advertising media to the point of the sickeningly absurd. What's wrong with sex? Nothing — in its place. But husbands and wives seldom need encouragement, and the others never do.

More laws will not curtail crime. Obedience and enforcement of existing laws is the solution, and that is something every citizen can do.

Complete instructions for a Happy New Year can be found in Duet. 30:5-20. We live in the greatest nation on earth. The average American enjoys a higher standard of living than any king knew prior to 1900. Gratitude and obedience to our Creator will preserve and prosper our beloved country.

selected for appointment to the U. S. Naval Academy, Class of 1975." He is to report to the Academy June 30, 1971. ". . . you have fulfilled its very stringent admission requirements."

A few days later Bullock received a letter from James Calvert, Vice Admiral, U. S. Navy Superintendent congratulating him on having been "selected to attend the Naval Academy at Annapolis."

Representative Bob Price nominated Bullock on December 22, but the nomination was declined since the appointment had already been made.

As a freshman Bullock was chosen as the outstanding freshman student. He was a member of the National Junior Honor Society and was on the merit list every six weeks. He was vice-president of the world history club, was a member of the biology and library club, and lettered in both football and basketball.

His sophomore year he was on the merit list every six weeks, chosen as the outstanding French I student and a member of the baseball and sophomore basketball team.

As a junior, he was one of six students selected to Junior Who's Who of CHS. He was on the merit list, a member of the National Honor Society, member of the junior varsity basketball team, parliamentarian of Future Teachers of America, alternate to NSF program at Texas A&M, and participated in the Amarillo Citizenship Conference and Boy's State.

This year Bullock was elected senior class president, is a member of the student council, a member of the varsity basketball team and is a charter member of the Key Club.

His scouting activities include such achievements as the attainment of Eagle Scout rank, a member of the Brotherhood in Order of the Arrow and being on the Trading Post Staff at the National Jamboree in 1969.

He is a member of the Presbyterian Church.

"The boys got a good stop on it," Jennings declared in praise of the department.

Jennings warned area people to be more careful in the days ahead. He pointed out that the dryness of grass plus the windy season of the year make the possibility of grass fires progressively more likely.

He said fires often are started by burning of trash, trains, cigarettes, careless hunters and exhaust from motor vehicles.

"We can expect more grass fires in the weeks ahead because the grass out there is powder dry," the fire chief declared.

Registration Is Jan. 14-16

Registration for the spring semester at West Texas State University will be Jan. 14-16 in the Activities Center, Dr. Donald Cates, dean of admissions and registrar, said today.

Cates said that former West Texas State students who were not enrolled last semester but who plan to enroll for the spring term should visit the registrar's office Jan. 4-8 to fill out an application for readmission.

"This will save those students some time during registration," he said.

"When returning students come to register we ask that they bring with them the registration materials they received the week of finals and their fall grades.

"Students who are lacking some of the registration materials will line up at the southeast entrance to the all-purpose room of the Activities Center," Cates said. "Those who have their materials will begin registration at the northeast entrance."

Prior to registration, Cates said, the American College Test (ACT) will be given to all beginning freshmen Jan. 11 in the auditorium of the Old Administration Building. Freshman orientation will be Jan. 12 in the Activities Center.

No estimated enrollment figure for the spring semester has been given. Last spring's enrollment was 7,018 and the recently completed semester's enrollment was 7,905.

Amerika feiert sie als neue Emma Peel: Agentin Carol Harilson mit Kollegen von der Polizei

Verhaftet: Gangsterboß Dean Bridges

Fast fünfzig Kilo Rauschgift aller Sorten fand die Polizei bei der Razzia in Koffern, Weckern und Konservenbüchsen

Auch er ging der Agentin ins Garn: Haschisch-Händler G. Wayne Morris

Im Minirock auf Gangsterjagd

Eine 22jährige Ehefrau und Mutter sprengte einen Rauschgiftring

126 QUICK

The narcotics raid of a year ago in Randall County attracted world-wide attention. This spread on the raids appeared in the German equivalent to Life Magazine. In the picture at upper left are Amarillo Police Chief Wiley Alexander, Mrs. Carolyn Cox, Randall County deputy sheriff and undercover agent, and Randall County Sheriff L. S. "Slim" Johnston. In the picture at upper right, Dean Bridges is being hustled along by a detective. At bottom left are Deptuy Al Smithers and an Amarillo detective, and at right Gary Wayne Morris is shown with a detective.

Die Schüler am College von Amarillo (Texas) wußten über Rauschgift besser Bescheid als über Mathematik und Geographie. In den Schulstunden schnupften die 16- bis 18jährigen Mädchen und Jungen Kokain, in den Pausen diskutierten sie die Preise von Heroin und Haschisch, und abends feierten sie LSD-Orgien im Stadtpark.

Eltern, Lehrer und Polizei waren machtlos. Niemand wußte, woher das Rauschgift kam, denn die Jungen und Mädchen verrieten die Händler nicht. Sie haschten und schwiegen. Da hatte der Sheriff eine Idee. Er rief eine der jüngsten Geheimagentinnen der USA zu Hilfe: die 22jährige Carol Harilson. Sie sollte den Rauschgiftring von Amarillo sprengen.

Bald darauf bekam das College eine neue Schülerin. „Carol Carlson" stand in ihren Papieren, „Alter: 18 Jahre". Gleich am ersten Tag gab es Ärger mit der Neuen. Carol erschien zum Unterricht im kürzesten Minirock, den man je in Amarillo gesehen hatte. Sie bekam vom Schulleiter einen Verweis – und errang dadurch sofort hohes Ansehen bei den Mitschülern. Als Carol dann erzählte, sie sei zu Hause weggelaufen, weil ihr die Eltern das Haschen verboten hätten, war das Eis gebrochen.

Von da an war die Neue überall dabei, wo gehascht, gekokst und gespritzt wurde, und bald lernte sie auch die Händler kennen, die den „Stoff" besorgten. In „Tikkos Restaurant" kaufte Carol selbst Hasch und Heroin. Zunächst nur grammweise, dann immer mehr, und schließlich verlangte sie Mengen, die die kleinen Händler nicht mehr liefern konnten. Sie gaben Carol den Tip: „Geh doch zu Dean, der hat jede Menge von dem Zeug!"

Endlich hatte die Agentin den Kontakt zum Chef des Rauschgiftringes gefunden. Der 29jährige Dean Bridges war bereit, sechs Plastiksäckchen Marihuana zum Preis von 150 Dollar (540 Mark) zu liefern. Aber bei der Übergabe der Ware war die Polizei dabei. Carol hatte die Kollegen um Amtshilfe gebeten. Dean Bridges wurde verhaftet, und mit ihm 13 Mitglieder seiner weitverzweigten Organisation.

Am Tag darauf erschien Carol, das Mädchen im Supermini, nicht mehr zum Unterricht. Niemand weiß, wo sie heute lebt. Der Sheriff von Amarillo lächelt: „Sie hat mir beim Abschied gesagt, daß sie sich nun wieder eine Weile um ihren Mann und um ihr Kind kümmern will. Carol ist nämlich glücklich verheiratet." ■

enjoy a festive fondue! it's easy to make, delicious

Fondue parties are a charming Swiss custom which is proving popular here as a friendly, informal way of entertaining. Easily adapted to large or small groups, a festive fondue at the holidays makes small demand on the busy hostess. Guests spear a piece of crusty French bread and dip it into a fondue sauce kept hot in a pot over a warmer. Here's a Holiday Fondue from The Lipton Kitchens that's a savory mixture of Swiss cheese, onion soup mix and apple juice. The onion soup mix has all the necessary seasonings needed for that zesty taste a fondue should have. Lipton onion soup mix is featured.

Holiday Fondue

1 envelope onion soup mix
2 cups apple juice
1 pound Swiss cheese, shredded (4 cups)
2 tablespoons flour
French bread cut into bite-size pieces

In medium saucepan combine the onion soup mix and apple juice; heat slowly.

In medium bowl, combine cheese with flour. When juice begins to simmer, add a small portion of the floured cheese and stir constantly until melted. Continue to add cheese gradually, stirring constantly, making sure each addition is melted. Remove to fondue pot, chafing dish or heated casserole.

SO DELICIOUS! SO EASY TO MAKE! A fondue party is perfect for the holidays. It's easily made with Swiss cheese, onion soup mix and apple juice. Each guest spears a piece of bread and goes dunking! See article accompanying photo, courtesy The Lipton Kitchens.
